Diversity & Inclusion (D&I) in ICL Our Policy & Guiding Principles

As a global industry, we are by the very nature of our geographical presence, a diverse family. ICL is a global company, which employs thousands of people in many countries. Our employees are of different races, ethnicities, genders, ages, religions, sexual orientations and belief systems. We want to treat all individuals fairly and respectfully regardless of personal characteristics.

We all hold equal importance

As ICL grows we will ensure all our team members can grow and develop along with us, not just as employees but as people. We recognize each person as an individual, each with their own desire to achieve their goals and aspirations.

We are proud of all our employees, we are proud to have them work with us and we strive to be an Employer of Choice, a company all feel proud to be a part of.

ICL is also committed to contribute to the global effort to UN SDG's (Sustainable Development Goals), including (but not limited to): Gender Equality- SDG 5; Decent Work and Economic growth- SDG 8; and Reduced Inequalities- SDG 10.

ICL D&I (diversity and inclusion) officer is responsible for aligning ICL D&I strategy and embed it into leadership and people practices, monitor and track the D&I KPIs, and develop and implement communication and learning D&I programs to support a DI culture.

Therefore, ICL believes it is essential that we commit to the following principles.

But words alone are not enough, we will monitor, measure and report our progress.

In particular:

- Our Performance in BDI 'Best Companies to Work For' Survey (Israel)
- Employee Engagement & Enablement scores from our own Employer of Choice Survey
- Our continuing participation in the Bloomberg Gender-Equality Index (GEI)
- Our Performance in the employment sections of ESG and sustainability rankings
